

Phumla Sithole

Johannesburg Jeepstown 2094
082 7452 174 / 072 2838 181 | phumlasj@gmail.com

OBJECTIVE

To secure a position in the Graduate Development Programme, leveraging my background in electrical engineering (electronics) and recent completion of a diploma in Information Technology. Eager to contribute to real world projects, gain exposure to various business areas, and enhance my skills in technology and digital innovation.

EXPERIENCE

April
2023 -
August
2023

- **Bootcamp Assistant (Volunteer)**

WeThinkCode

- Utilized Python3 to dissect the curriculum, enriching comprehension for participants undergoing bootcamp training.
- Delivered customized feedback and assistance, guaranteeing the achievement of individual participant objectives.
- Fostered interactive learning environments through engaging group discussions, cultivating a positive and collaborative atmosphere.
- Led the troubleshooting efforts to resolve technical hurdles, ensuring a seamless learning journey for all participants.

March
2019 -
February
2020

- **Inserves Training**

The MakerSpace

- Advocated for the integration of cutting-edge tools, enhancing operational efficiency during electrical engineering diploma training sessions.
- Collaborated on innovative strategies, optimizing production processes and project workflows.
- Addressed machinery-related technical issues, ensuring uninterrupted operations and workflow continuity.
- Supported senior technicians in problem-solving initiatives, actively contributing to a safe and productive work environment.

EDUCATION

2023

- **Systems Development (IT)**

WeThinkCode

75

2019

- **Electrical Engineering**

Mangosuthu University of Technology

68

- **Matric**
Dilizela High School
69

SKILLS

Electrical Engineering (Electronics): Proficiency in electrical engineering principles and electronics.

Microsoft Office: Proficiency in using Microsoft Office suite for documentation and presentations.

Data Analysis: Capability to analyze and interpret data to extract insights and make informed decisions.

Learning & Researching: Eagerness to learn new concepts and technologies through research and training.

Achieving Personal Work Goals & Objectives: Motivation to set and achieve personal and professional development goals.

Delivering Results & Meeting Customer Expectations: Commitment to delivering high-quality results and meeting or exceeding customer expectations.

Information Technology: Understanding of IT concepts, including software development, networks, and systems.

Communication: Strong verbal and written communication skills to interact effectively with colleagues and stakeholders.

Customer Orientation: Focus on understanding and meeting customer needs and expectations.

Working with People: Ability to collaborate with diverse teams and build positive working relationships.

Following Instructions & Procedures: Capacity to adhere to organizational procedures and guidelines.

Quality Assurance and Software Testing
